

Falls Road Primary P&C News #4

July 2020

From the President's Desk

Term 3 Already

2020 is proving to be the shortest year, and the longest year, both at the same time! The P&C has been quiet during the challenging Covid-19 times but as restrictions ease, we are hoping to get back in action.

Although we have not been busy on the fundraising front – you may have read in an earlier newsletter that the P&C has this year approved funding for new reverse cycle air conditioning in almost all the classrooms! This is an enormous contribution to the school – for the benefit of both the students and the staff, especially in the brutal summer heat. This has been achieved through the generous support of the school community and the hard work of dedicated P&C members and other willing parents and community members, who have been so kind as to donate prizes, time and effort for the benefit of our school! We thank you all very much on behalf of staff and students - the cool classroom environments will provide significantly more comfort on hot summer days, which is a far more conducive environment to concentrating and learning.

We will keep you updated with P&C events throughout the coming term as they are finalised and approved, subject to changes in Covid related restrictions. The *next P&C meeting* is scheduled to occur on next *Monday 3rd of August at 7pm in the staff room*. Now is a great time to come along and attend a meeting. It's a wonderful forum to meet other engaged parents and carers, and gain insights into the school through our principal, David Ingle, who attends all our P&C meetings. All are welcome – you can email through your intention to attend beforehand to vanessa@walkerbiz.com or you are welcome to just come along on the night!

We look forward to a smooth term 3. Hopefully!
Vanessa Rando.
